2302031030136 Assignment-1

Here are the steps to create a git repository named as my enrollment num. and add two folders names assignmenti and assignment2.

Step1= open your terminal or command prompt.

Step2=navigate to the directory where you want to create the repository using the cd command.

Step3=run the command git init " 2302031030136" to create a new git repository named "2302031030136"

Step4=navigate into the newly created repository using cd 2302031030136

Step5=run mkdir assignmenti to create the assignmenti folder

Step6=run mkdir assignment2 to create the assignment folder

Step7=now your repository should have two folder names assignmentl and assignment

Step8=you can add files to these folders and commit your changes using git commands like git add and git commit -m initial commit

That's it you are creates a git repository named 2302031030136 with two folders named assignment1and assignment2.
